

## 1 Embed or Download the Dashboard

For **embedding a dashboard** in English just navigate to the EDNH-Page, click on “</> EMBED” below the Dashboard and copy&paste the embed code to your backend (Figure 1) – and you’re done!

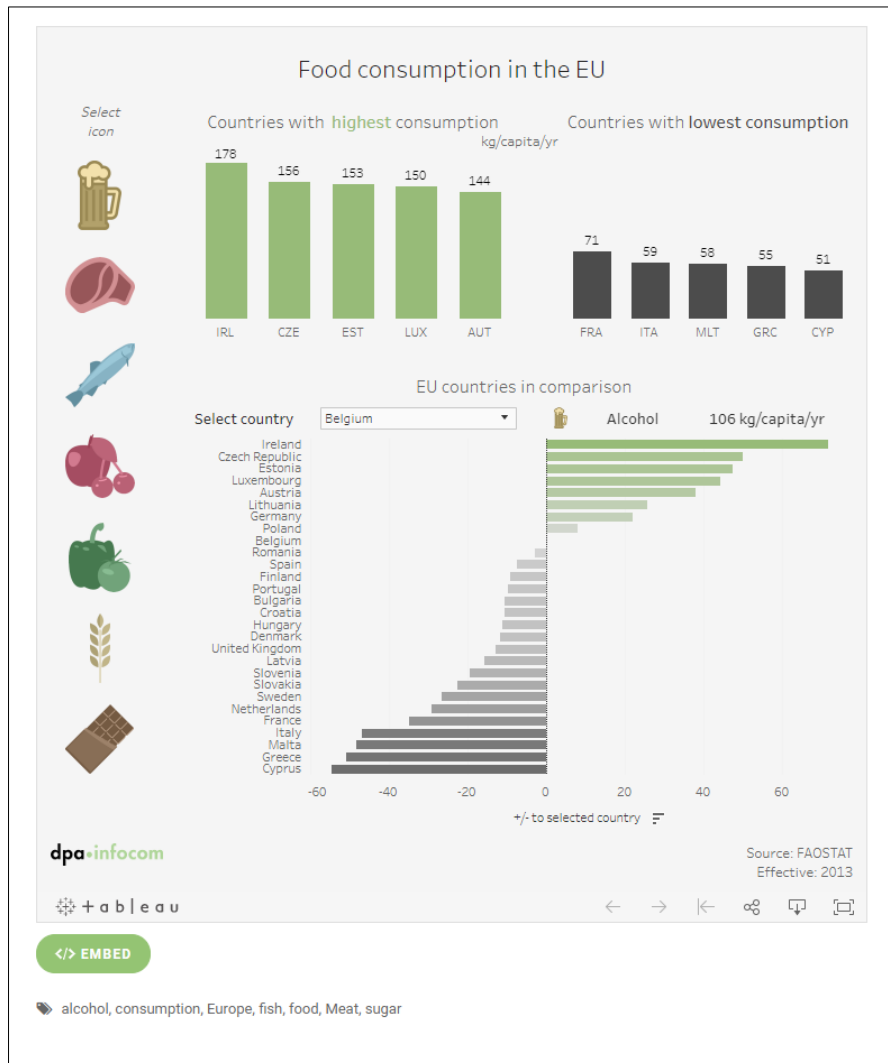

Figure 1

If you want to **translate a dashboard** into your language, contact us under [info@ednh.news](mailto:info@ednh.news). We will send you the Tableau workbook, so you can edit the text. Therefore please follow the steps as described herein (2-5).

## 2 Getting Started

Download Tableau Public: Go to <https://public.tableau.com/s/download>

Create a Tableau Public profile: Go to <https://public.tableau.com/s/> and click „sign in”. At the bottom of the pop up click on “Create one now for free” to register a tableau public account.

## 3 Replace the text in your language

Open the workbook with tableau public

Replace the text by clicking on the textboxes (Figure 2)

Figure 2

Navigate to the worksheets by clicking on *Go to Sheet* (Figure 3)

Figure 3

Right click on the dimensions to edit aliases (Figure 4 and 5)

Replace the text

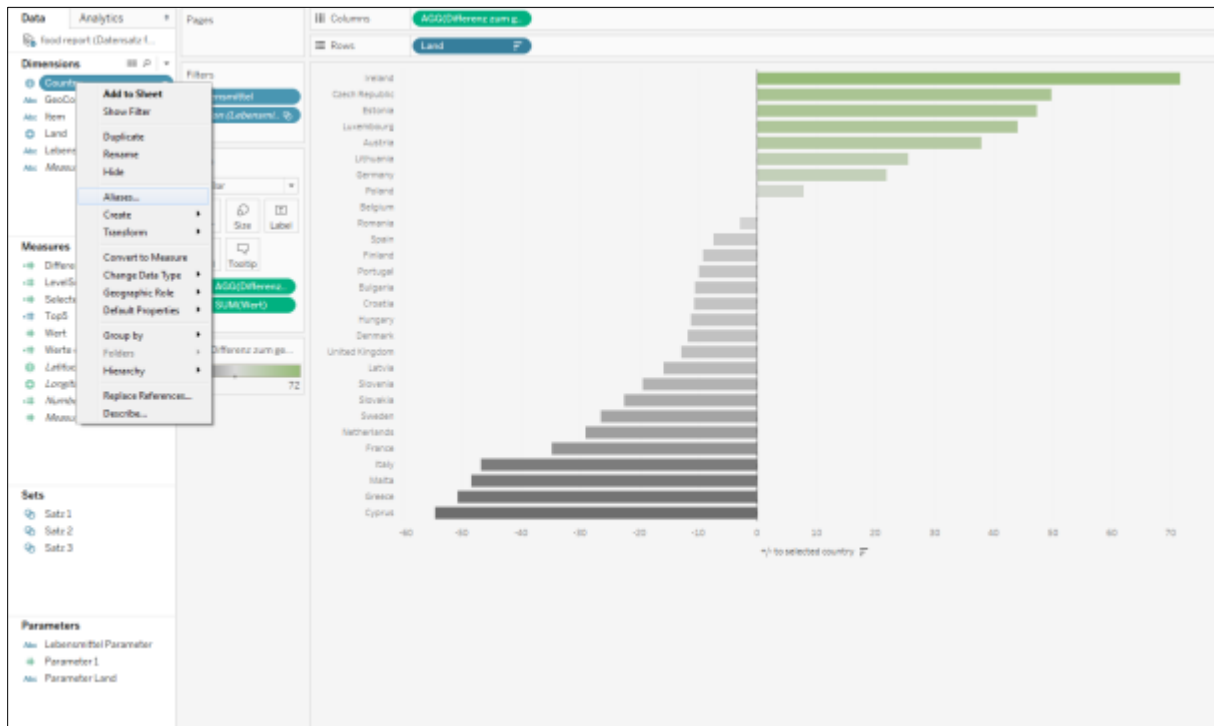

Figure 4

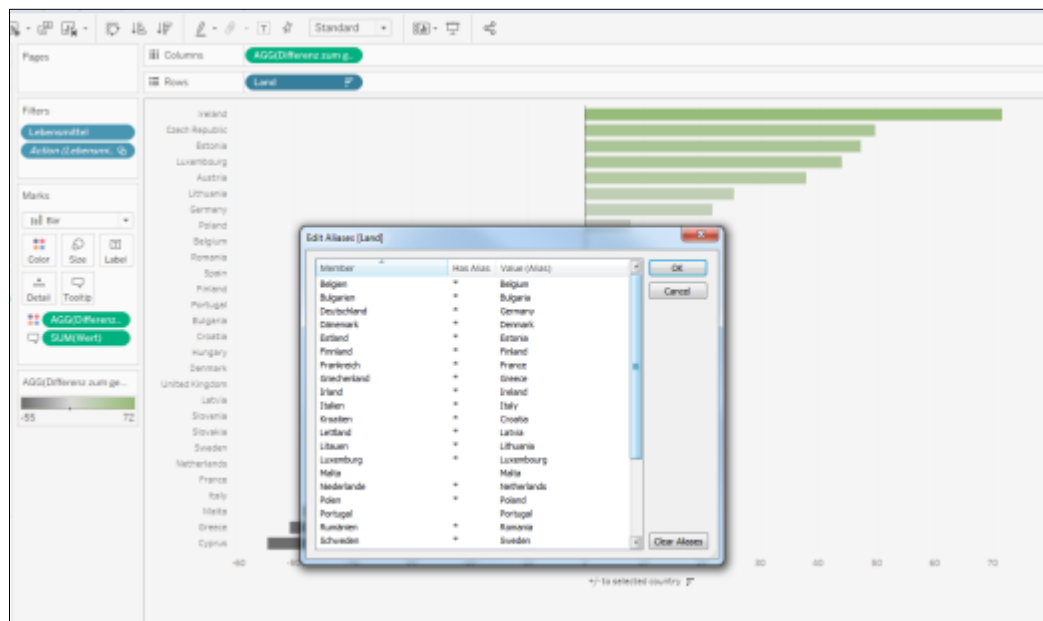

Figure 5

Click on *tooltip* to replace the text you can find here (Figure 6)

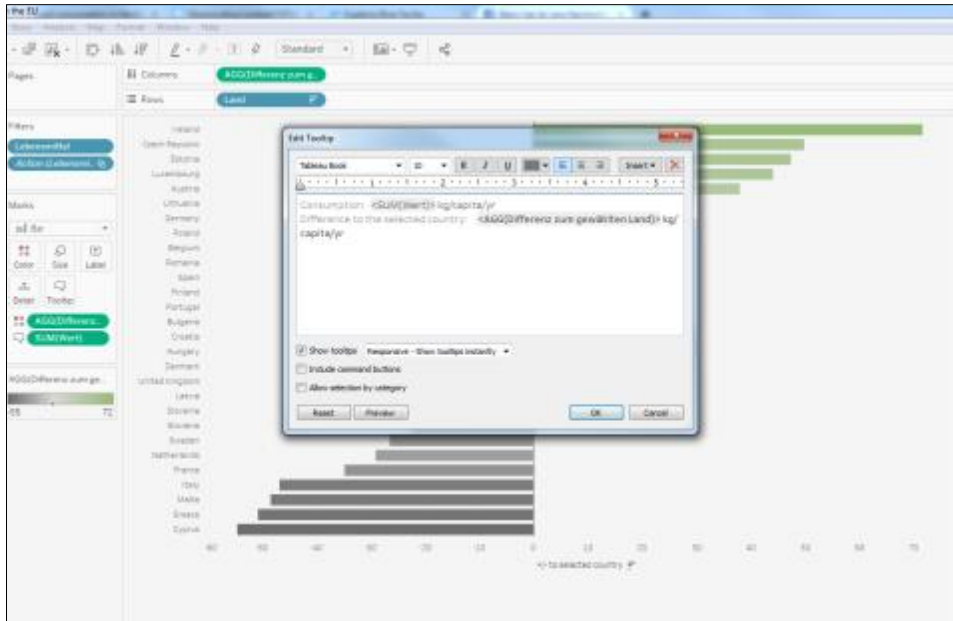

Figure 6

Rename the *dimensions* and the *measures* if necessary (right click on respective *dimension* or *measures*)

#### 4 Publish your dashboard

If you have replaced all text elements you can upload the dashboard to your tableau public profile by clicking on *File < Save to Tableau Public as*

#### 5 Embed your new dashboard

In your Tableau Public profile: click *Share* (the three connected dots) at the bottom of the visualization  
Click on *Embed Code* and copy the code (ctrl+c)

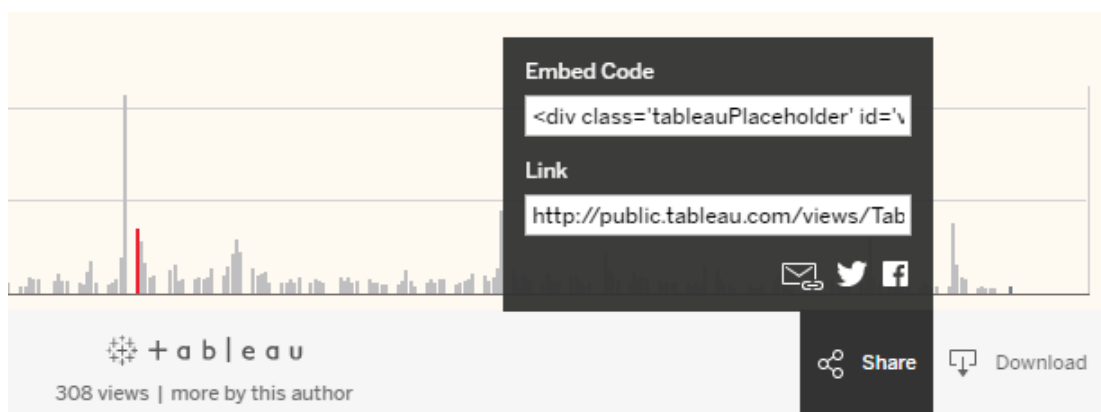

Figure 7

Go to EDNH or your CMS and create a new post

For EDNH-CMS: Select *text view* instead of *visual view*

Paste the embed code (ctrl+v)

Add category, tags, headline etc. as you already know, preview and publish the post.
